

# CVE-2000-0444

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                            |
|------------------------|------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2000-0444                                                                                              |
| <b>State</b>           | PUBLIC                                                                                                     |
| <b>Assigner</b>        | cve@mitre.org                                                                                              |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                               |
| <b>Published</b>       | 2000-05-24 04:00:00 UTC                                                                                    |
| <b>Updated</b>         | 2008-09-10 19:04:00 UTC                                                                                    |
| <b>Description</b>     | HP Web JetAdmin 6.0 allows remote attackers to cause a denial of service via a malformed URL to port 8000. |

## Risk And Classification

**Problem Types:** NVD-CWE-Other

## NVD Known Affected Configurations (CPE 2.3)

| Type        | Vendor             | Product                  | Version | Update | Edition | Language |
|-------------|--------------------|--------------------------|---------|--------|---------|----------|
| Application | <a href="#">Hp</a> | <a href="#">Jetadmin</a> | 6.0     | All    | All     | All      |
| Application | <a href="#">Hp</a> | <a href="#">Jetadmin</a> | 6.0     | All    | All     | All      |
