

# CVE-2001-0298

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                                    |
|------------------------|------------------------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2001-0298                                                                                                                      |
| <b>State</b>           | PUBLIC                                                                                                                             |
| <b>Assigner</b>        | cve@mitre.org                                                                                                                      |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                                       |
| <b>Published</b>       | 2001-05-03 04:00:00 UTC                                                                                                            |
| <b>Updated</b>         | 2008-09-05 20:23:00 UTC                                                                                                            |
| <b>Description</b>     | Buffer overflow in WebReflex 1.55 HTTPd allows remote attackers to cause a denial of service, and possibly execute arbitrary code. |

## Risk And Classification

**Problem Types:** NVD-CWE-Other

## NVD Known Affected Configurations (CPE 2.3)

| Type        | Vendor                           | Product                   | Version | Update | Edition | Language |
|-------------|----------------------------------|---------------------------|---------|--------|---------|----------|
| Application | <a href="#">Sapio Design Ltd</a> | <a href="#">Webreflex</a> | 1.55    | All    | All     | All      |
| Application | <a href="#">Sapio Design Ltd</a> | <a href="#">Webreflex</a> | 1.55    | All    | All     | All      |
