

# CVE-2001-1187

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                |
|------------------------|----------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2001-1187                                                                                                  |
| <b>State</b>           | PUBLIC                                                                                                         |
| <b>Assigner</b>        | cve@mitre.org                                                                                                  |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                   |
| <b>Published</b>       | 2001-12-11 05:00:00 UTC                                                                                        |
| <b>Updated</b>         | 2008-09-10 19:09:00 UTC                                                                                        |
| <b>Description</b>     | csvform.pl 0.1 allows remote attackers to execute arbitrary commands via metacharacters in the file parameter. |

## Risk And Classification

**Problem Types:** NVD-CWE-Other

## NVD Known Affected Configurations (CPE 2.3)

| Type        | Vendor                           | Product                      | Version | Update | Edition | Language |
|-------------|----------------------------------|------------------------------|---------|--------|---------|----------|
| Application | <a href="#">Mutasem Abudahab</a> | <a href="#">Csvform</a>      | 0.1     | All    | All     | All      |
| Application | <a href="#">Mutasem Abudahab</a> | <a href="#">Csvform</a>      | 0.1     | All    | All     | All      |
| Application | <a href="#">Mutasem Abudahab</a> | <a href="#">Csvform Plus</a> | 1.0     | All    | All     | All      |
| Application | <a href="#">Mutasem Abudahab</a> | <a href="#">Csvform Plus</a> | 1.0     | All    | All     | All      |
