

# CVE-2004-0515

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                       |
|------------------------|-------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2004-0515                                                                                         |
| <b>State</b>           | PUBLIC                                                                                                |
| <b>Assigner</b>        | cve@mitre.org                                                                                         |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                          |
| <b>Published</b>       | 2004-08-18 04:00:00 UTC                                                                               |
| <b>Updated</b>         | 2017-07-11 01:30:00 UTC                                                                               |
| <b>Description</b>     | Unknown vulnerability in LoginWindow for Mac OS X 10.3.4, related to "handling of console log files." |

## Risk And Classification

**Problem Types:** NVD-CWE-Other

## NVD Known Affected Configurations (CPE 2.3)
