

# CVE-2006-3570

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                              |
|------------------------|------------------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2006-3570                                                                                                                |
| <b>State</b>           | PUBLIC                                                                                                                       |
| <b>Assigner</b>        | cve@mitre.org                                                                                                                |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                                 |
| <b>Published</b>       | 2006-07-13 01:05:00 UTC                                                                                                      |
| <b>Updated</b>         | 2017-07-20 01:32:00 UTC                                                                                                      |
| <b>Description</b>     | Cross-site scripting (XSS) vulnerability in the webform module in Drupal 4.6 before July 8, 2006 and 4.7 before July 8, 2006 |

## Risk And Classification

**Problem Types:** NVD-CWE-Other

## NVD Known Affected Configurations (CPE 2.3)

| Type        | Vendor                 | Product                | Version | Update | Edition | Language |
|-------------|------------------------|------------------------|---------|--------|---------|----------|
| Application | <a href="#">Drupal</a> | <a href="#">Drupal</a> | 4.6     | All    | All     | All      |
| Application | <a href="#">Drupal</a> | <a href="#">Drupal</a> | 4.7     | All    | All     | All      |
| Application | <a href="#">Drupal</a> | <a href="#">Drupal</a> | 4.6     | All    | All     | All      |
| Application | <a href="#">Drupal</a> | <a href="#">Drupal</a> | 4.7     | All    | All     | All      |
