

# CVE-2006-3707

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                            |
|------------------------|----------------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2006-3707                                                                                                              |
| <b>State</b>           | PUBLIC                                                                                                                     |
| <b>Assigner</b>        | cve@mitre.org                                                                                                              |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                               |
| <b>Published</b>       | 2006-07-21 14:03:00 UTC                                                                                                    |
| <b>Updated</b>         | 2018-10-18 16:49:00 UTC                                                                                                    |
| <b>Description</b>     | Unspecified vulnerability in OC4J for Oracle Application Server 9.0.2.3 and 9.0.3.1 has unknown impact and attack vectors, |

## Risk And Classification

**Problem Types:** NVD-CWE-noinfo

## NVD Known Affected Configurations (CPE 2.3)

| Type        | Vendor                 | Product                            | Version | Update | Edition | Language |
|-------------|------------------------|------------------------------------|---------|--------|---------|----------|
| Application | <a href="#">Oracle</a> | <a href="#">Application Server</a> | 9.0.2.3 | All    | All     | All      |
| Application | <a href="#">Oracle</a> | <a href="#">Application Server</a> | 9.0.3.1 | All    | All     | All      |
| Application | <a href="#">Oracle</a> | <a href="#">Application Server</a> | 9.0.2.3 | All    | All     | All      |
| Application | <a href="#">Oracle</a> | <a href="#">Application Server</a> | 9.0.3.1 | All    | All     | All      |
