

# CVE-2006-3728

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                           |
|------------------------|---------------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2006-3728                                                                                                             |
| <b>State</b>           | PUBLIC                                                                                                                    |
| <b>Assigner</b>        | cve@mitre.org                                                                                                             |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                              |
| <b>Published</b>       | 2006-07-21 14:03:00 UTC                                                                                                   |
| <b>Updated</b>         | 2018-10-30 16:25:00 UTC                                                                                                   |
| <b>Description</b>     | Unspecified vulnerability in the kernel in Solaris 10 with patch 118822-29 (118844-29 on x86) and without patch 118833-11 |

## Risk And Classification

**Problem Types:** NVD-CWE-noinfo

## NVD Known Affected Configurations (CPE 2.3)

| Type             | Vendor              | Product                 | Version | Update | Edition | Language |
|------------------|---------------------|-------------------------|---------|--------|---------|----------|
| Operating System | <a href="#">Sun</a> | <a href="#">Solaris</a> | 10.0    | All    | x86     | All      |
| Operating System | <a href="#">Sun</a> | <a href="#">Solaris</a> | 10.0    | All    | x86     | All      |
| Operating System | <a href="#">Sun</a> | <a href="#">Sunos</a>   | 5.10    | All    | All     | All      |
| Operating System | <a href="#">Sun</a> | <a href="#">Sunos</a>   | 5.10    | All    | All     | All      |
