

# CVE-2006-4581

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                              |
|------------------------|------------------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2006-4581                                                                                                                |
| <b>State</b>           | PUBLIC                                                                                                                       |
| <b>Assigner</b>        | PSIRT-CNA@flexerasoftware.com                                                                                                |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                                 |
| <b>Published</b>       | 2006-12-31 05:00:00 UTC                                                                                                      |
| <b>Updated</b>         | 2017-07-20 01:33:00 UTC                                                                                                      |
| <b>Description</b>     | Unrestricted file upload vulnerability in The Address Book 1.04e validates the Content-Type header but not the file extensio |

## Risk And Classification

**Problem Types:** NVD-CWE-Other

## NVD Known Affected Configurations (CPE 2.3)

| Type        | Vendor                           | Product                          | Version | Update | Edition | Language |
|-------------|----------------------------------|----------------------------------|---------|--------|---------|----------|
| Application | <a href="#">The Address Book</a> | <a href="#">The Address Book</a> | 1.04e   | All    | All     | All      |
| Application | <a href="#">The Address Book</a> | <a href="#">The Address Book</a> | 1.04e   | All    | All     | All      |
