

# CVE-2006-4782

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                                   |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2006-4782                                                                                                                     |
| <b>State</b>           | PUBLIC                                                                                                                            |
| <b>Assigner</b>        | cve@mitre.org                                                                                                                     |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                                      |
| <b>Published</b>       | 2006-09-14 10:07:00 UTC                                                                                                           |
| <b>Updated</b>         | 2017-10-19 01:29:00 UTC                                                                                                           |
| <b>Description</b>     | src/index.php in WebSPELL 4.01.01 and earlier, when register_globals is enabled, allows remote attackers to bypass authentication |

## Risk And Classification

**Problem Types:** NVD-CWE-Other

## NVD Known Affected Configurations (CPE 2.3)

| Type        | Vendor                   | Product                  | Version | Update | Edition | Language |
|-------------|--------------------------|--------------------------|---------|--------|---------|----------|
| Application | <a href="#">Webspell</a> | <a href="#">Webspell</a> | 4.0     | All    | All     | All      |
| Application | <a href="#">Webspell</a> | <a href="#">Webspell</a> | 4.1     | All    | All     | All      |
| Application | <a href="#">Webspell</a> | <a href="#">Webspell</a> | 4.1.1   | All    | All     | All      |
| Application | <a href="#">Webspell</a> | <a href="#">Webspell</a> | 4.0     | All    | All     | All      |
| Application | <a href="#">Webspell</a> | <a href="#">Webspell</a> | 4.1     | All    | All     | All      |
| Application | <a href="#">Webspell</a> | <a href="#">Webspell</a> | 4.1.1   | All    | All     | All      |
| Application | <a href="#">Webspell</a> | <a href="#">Webspell</a> | All     | All    | All     | All      |
