

# CVE-2007-2775

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                            |
|------------------------|----------------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2007-2775                                                                                                              |
| <b>State</b>           | PUBLIC                                                                                                                     |
| <b>Assigner</b>        | cve@mitre.org                                                                                                              |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                               |
| <b>Published</b>       | 2007-05-21 23:30:00 UTC                                                                                                    |
| <b>Updated</b>         | 2017-10-11 01:32:00 UTC                                                                                                    |
| <b>Description</b>     | AltraSoft Live Support 1.21 sends a redirect to the web browser but does not exit when administrative credentials are miss |

## Risk And Classification

**Problem Types:** NVD-CWE-Other

## NVD Known Affected Configurations (CPE 2.3)

| Type        | Vendor                    | Product                      | Version | Update | Edition | Language |
|-------------|---------------------------|------------------------------|---------|--------|---------|----------|
| Application | <a href="#">Altrasoft</a> | <a href="#">Live Support</a> | 1.21    | All    | All     | All      |
| Application | <a href="#">Altrasoft</a> | <a href="#">Live Support</a> | 1.21    | All    | All     | All      |
