

# CVE-2007-4063

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                               |
|------------------------|-------------------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2007-4063                                                                                                                 |
| <b>State</b>           | PUBLIC                                                                                                                        |
| <b>Assigner</b>        | cve@mitre.org                                                                                                                 |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                                  |
| <b>Published</b>       | 2007-07-30 17:30:00 UTC                                                                                                       |
| <b>Updated</b>         | 2017-07-29 01:32:00 UTC                                                                                                       |
| <b>Description</b>     | Multiple cross-site request forgery (CSRF) vulnerabilities in Drupal 5.x before 5.2 allow remote attackers to (1) delete comm |

## Risk And Classification

**Problem Types:** NVD-CWE-Other

## NVD Known Affected Configurations (CPE 2.3)

| Type        | Vendor                 | Product                | Version    | Update | Edition | Language |
|-------------|------------------------|------------------------|------------|--------|---------|----------|
| Application | <a href="#">Drupal</a> | <a href="#">Drupal</a> | 5.0        | All    | All     | All      |
| Application | <a href="#">Drupal</a> | <a href="#">Drupal</a> | 5.1        | All    | All     | All      |
| Application | <a href="#">Drupal</a> | <a href="#">Drupal</a> | 5.1_rev1.1 | All    | All     | All      |
| Application | <a href="#">Drupal</a> | <a href="#">Drupal</a> | 5.0        | All    | All     | All      |
| Application | <a href="#">Drupal</a> | <a href="#">Drupal</a> | 5.1        | All    | All     | All      |
| Application | <a href="#">Drupal</a> | <a href="#">Drupal</a> | 5.1_rev1.1 | All    | All     | All      |
