

# CVE-2007-4354

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                                  |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2007-4354                                                                                                                    |
| <b>State</b>           | PUBLIC                                                                                                                           |
| <b>Assigner</b>        | cve@mitre.org                                                                                                                    |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                                     |
| <b>Published</b>       | 2007-08-15 00:17:00 UTC                                                                                                          |
| <b>Updated</b>         | 2017-07-29 01:32:00 UTC                                                                                                          |
| <b>Description</b>     | Buffer overflow in fileplace in bos.perf.tools in IBM AIX 5.2 and 5.3 allows local users to gain privileges via unspecified vect |

## Risk And Classification

**Problem Types:** NVD-CWE-Other

## NVD Known Affected Configurations (CPE 2.3)

| Type             | Vendor              | Product             | Version | Update | Edition | Language |
|------------------|---------------------|---------------------|---------|--------|---------|----------|
| Operating System | <a href="#">ibm</a> | <a href="#">Aix</a> | 5.2     | All    | All     | All      |
| Operating System | <a href="#">ibm</a> | <a href="#">Aix</a> | 5.3     | All    | All     | All      |
| Operating System | <a href="#">ibm</a> | <a href="#">Aix</a> | 5.2     | All    | All     | All      |
| Operating System | <a href="#">ibm</a> | <a href="#">Aix</a> | 5.3     | All    | All     | All      |
