

# CVE-2007-4406

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                             |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2007-4406                                                                                                               |
| <b>State</b>           | PUBLIC                                                                                                                      |
| <b>Assigner</b>        | cve@mitre.org                                                                                                               |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                                |
| <b>Published</b>       | 2007-08-18 21:17:00 UTC                                                                                                     |
| <b>Updated</b>         | 2018-10-15 21:35:00 UTC                                                                                                     |
| <b>Description</b>     | ircu 2.10.12.01 through 2.10.12.04 does not remove ops privilege after a join from a server with an older timestamp (TS), w |

## Risk And Classification

**Problem Types:** NVD-CWE-Other

## NVD Known Affected Configurations (CPE 2.3)

| Type        | Vendor                         | Product              | Version    | Update | Edition | Language |
|-------------|--------------------------------|----------------------|------------|--------|---------|----------|
| Application | <a href="#">Universal Ircd</a> | <a href="#">Ircu</a> | 2.10.12.01 | All    | All     | All      |
| Application | <a href="#">Universal Ircd</a> | <a href="#">Ircu</a> | 2.10.12.02 | All    | All     | All      |
| Application | <a href="#">Universal Ircd</a> | <a href="#">Ircu</a> | 2.10.12.03 | All    | All     | All      |
| Application | <a href="#">Universal Ircd</a> | <a href="#">Ircu</a> | 2.10.12.04 | All    | All     | All      |
| Application | <a href="#">Universal Ircd</a> | <a href="#">Ircu</a> | 2.10.12.01 | All    | All     | All      |
| Application | <a href="#">Universal Ircd</a> | <a href="#">Ircu</a> | 2.10.12.02 | All    | All     | All      |
| Application | <a href="#">Universal Ircd</a> | <a href="#">Ircu</a> | 2.10.12.03 | All    | All     | All      |
