

# CVE-2008-0051

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                            |
|------------------------|----------------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2008-0051                                                                                                              |
| <b>State</b>           | PUBLIC                                                                                                                     |
| <b>Assigner</b>        | cve@mitre.org                                                                                                              |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                               |
| <b>Published</b>       | 2008-03-18 22:44:00 UTC                                                                                                    |
| <b>Updated</b>         | 2017-08-08 01:29:00 UTC                                                                                                    |
| <b>Description</b>     | Integer overflow in CoreFoundation in Apple Mac OS X 10.4.11 might allow local users to execute arbitrary code via crafted |

## Risk And Classification

### Problem Types: CWE-189

## NVD Known Affected Configurations (CPE 2.3)

| Type             | Vendor                | Product                         | Version | Update | Edition | Language |
|------------------|-----------------------|---------------------------------|---------|--------|---------|----------|
| Operating System | <a href="#">Apple</a> | <a href="#">Mac Os X</a>        | 10.4.11 | All    | All     | All      |
| Operating System | <a href="#">Apple</a> | <a href="#">Mac Os X</a>        | 10.4.11 | All    | All     | All      |
| Operating System | <a href="#">Apple</a> | <a href="#">Mac Os X Server</a> | 10.4.11 | All    | All     | All      |
| Operating System | <a href="#">Apple</a> | <a href="#">Mac Os X Server</a> | 10.4.11 | All    | All     | All      |
