

# CVE-2008-0933

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                            |
|------------------------|----------------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2008-0933                                                                                                              |
| <b>State</b>           | PUBLIC                                                                                                                     |
| <b>Assigner</b>        | cve@mitre.org                                                                                                              |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                               |
| <b>Published</b>       | 2008-02-25 18:44:00 UTC                                                                                                    |
| <b>Updated</b>         | 2017-09-29 01:30:00 UTC                                                                                                    |
| <b>Description</b>     | Multiple race conditions in the CPU Performance Counters (cpc) subsystem in the kernel in Sun Solaris 10 allow local users |

## Risk And Classification

### Problem Types: CWE-362

## NVD Known Affected Configurations (CPE 2.3)

| Type             | Vendor              | Product                 | Version | Update | Edition   | Language |
|------------------|---------------------|-------------------------|---------|--------|-----------|----------|
| Operating System | <a href="#">Sun</a> | <a href="#">Solaris</a> | 10.0    | All    | sparc     | All      |
| Operating System | <a href="#">Sun</a> | <a href="#">Solaris</a> | 10.0    | All    | x86       | All      |
| Operating System | <a href="#">Sun</a> | <a href="#">Solaris</a> | 10.0    | All    | x86_sparc | All      |
| Operating System | <a href="#">Sun</a> | <a href="#">Solaris</a> | 10.0    | All    | sparc     | All      |
| Operating System | <a href="#">Sun</a> | <a href="#">Solaris</a> | 10.0    | All    | x86       | All      |
| Operating System | <a href="#">Sun</a> | <a href="#">Solaris</a> | 10.0    | All    | x86_sparc | All      |
