

# CVE-2008-0938

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                          |
|------------------------|--------------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2008-0938                                                                                                            |
| <b>State</b>           | PUBLIC                                                                                                                   |
| <b>Assigner</b>        | cve@mitre.org                                                                                                            |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                             |
| <b>Published</b>       | 2008-02-25 18:44:00 UTC                                                                                                  |
| <b>Updated</b>         | 2017-09-29 01:30:00 UTC                                                                                                  |
| <b>Description</b>     | Unspecified vulnerability in the dynamic tracing framework (DTrace) in Sun Solaris 10 allows local users with PRIV_DTRAC |

## Risk And Classification

### Problem Types: CWE-200

## NVD Known Affected Configurations (CPE 2.3)

| Type             | Vendor              | Product                 | Version | Update | Edition | Language |
|------------------|---------------------|-------------------------|---------|--------|---------|----------|
| Operating System | <a href="#">Sun</a> | <a href="#">Solaris</a> | 10      | All    | sparc   | All      |
| Operating System | <a href="#">Sun</a> | <a href="#">Solaris</a> | 10      | All    | x86     | All      |
| Operating System | <a href="#">Sun</a> | <a href="#">Solaris</a> | 10      | All    | sparc   | All      |
| Operating System | <a href="#">Sun</a> | <a href="#">Solaris</a> | 10      | All    | x86     | All      |
