

# CVE-2008-1136

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                            |
|------------------------|----------------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2008-1136                                                                                                              |
| <b>State</b>           | PUBLIC                                                                                                                     |
| <b>Assigner</b>        | cve@mitre.org                                                                                                              |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                               |
| <b>Published</b>       | 2008-03-04 19:44:00 UTC                                                                                                    |
| <b>Updated</b>         | 2018-10-11 20:29:00 UTC                                                                                                    |
| <b>Description</b>     | The Utils::runScripts function in src/utlis.cpp in vdccm 0.92 through 0.10.0 in SynCE (SynCE-dccm) allows remote attackers |

## Risk And Classification

**Problem Types:** CWE-94 | CWE-20

## NVD Known Affected Configurations (CPE 2.3)

| Type        | Vendor                | Product               | Version | Update | Edition | Language |
|-------------|-----------------------|-----------------------|---------|--------|---------|----------|
| Application | <a href="#">Synce</a> | <a href="#">Synce</a> | 0.10.0  | All    | All     | All      |
| Application | <a href="#">Synce</a> | <a href="#">Synce</a> | 0.92    | All    | All     | All      |
| Application | <a href="#">Synce</a> | <a href="#">Synce</a> | 0.10.0  | All    | All     | All      |
| Application | <a href="#">Synce</a> | <a href="#">Synce</a> | 0.92    | All    | All     | All      |
