

# CVE-2008-2539

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                            |
|------------------------|----------------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2008-2539                                                                                                              |
| <b>State</b>           | PUBLIC                                                                                                                     |
| <b>Assigner</b>        | cve@mitre.org                                                                                                              |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                               |
| <b>Published</b>       | 2008-06-03 15:32:00 UTC                                                                                                    |
| <b>Updated</b>         | 2017-08-08 01:31:00 UTC                                                                                                    |
| <b>Description</b>     | The Sun Cluster Global File System in Sun Cluster 3.1 on Sun Solaris 8 through 10, when an underlying ufs filesystem is us |

## Risk And Classification

### Problem Types: CWE-264

## NVD Known Affected Configurations (CPE 2.3)

| Type        | Vendor              | Product                 | Version | Update | Edition    | Language |
|-------------|---------------------|-------------------------|---------|--------|------------|----------|
| Application | <a href="#">Sun</a> | <a href="#">Cluster</a> | 3.1     | All    | solaris_10 | All      |
| Application | <a href="#">Sun</a> | <a href="#">Cluster</a> | 3.1     | All    | solaris_8  | All      |
| Application | <a href="#">Sun</a> | <a href="#">Cluster</a> | 3.1     | All    | solaris_9  | All      |
| Application | <a href="#">Sun</a> | <a href="#">Cluster</a> | 3.1     | All    | solaris_10 | All      |
| Application | <a href="#">Sun</a> | <a href="#">Cluster</a> | 3.1     | All    | solaris_8  | All      |
| Application | <a href="#">Sun</a> | <a href="#">Cluster</a> | 3.1     | All    | solaris_9  | All      |
