

# CVE-2009-0983

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                             |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2009-0983                                                                                                               |
| <b>State</b>           | PUBLIC                                                                                                                      |
| <b>Assigner</b>        | secalert_us@oracle.com                                                                                                      |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                                |
| <b>Published</b>       | 2009-04-15 10:30:00 UTC                                                                                                     |
| <b>Updated</b>         | 2021-07-13 19:07:00 UTC                                                                                                     |
| <b>Description</b>     | Unspecified vulnerability in the Portal component in Oracle Application Server 10.1.2.3 and 10.1.4.2 allows remote attacker |

## Risk And Classification

**Problem Types:** NVD-CWE-noinfo

## NVD Known Affected Configurations (CPE 2.3)

| Type        | Vendor                 | Product                                | Version    | Update | Edition | Language |
|-------------|------------------------|----------------------------------------|------------|--------|---------|----------|
| Application | <a href="#">Oracle</a> | <a href="#">Application Server</a>     | 10.1.2.3.0 | All    | All     | All      |
| Application | <a href="#">Oracle</a> | <a href="#">Application Server</a>     | 10.1.4.2.0 | All    | All     | All      |
| Application | <a href="#">Oracle</a> | <a href="#">Application Server 10g</a> | 10.1.2.3   | All    | All     | All      |
| Application | <a href="#">Oracle</a> | <a href="#">Application Server 10g</a> | 10.1.4.2   | All    | All     | All      |
| Application | <a href="#">Oracle</a> | <a href="#">Application Server 10g</a> | 10.1.2.3   | All    | All     | All      |
| Application | <a href="#">Oracle</a> | <a href="#">Application Server 10g</a> | 10.1.4.2   | All    | All     | All      |
