

# CVE-2010-4823

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                              |
|------------------------|------------------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2010-4823                                                                                                                |
| <b>State</b>           | PUBLIC                                                                                                                       |
| <b>Assigner</b>        | secalert@redhat.com                                                                                                          |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                                 |
| <b>Published</b>       | 2012-09-17 17:55:00 UTC                                                                                                      |
| <b>Updated</b>         | 2017-08-29 01:29:00 UTC                                                                                                      |
| <b>Description</b>     | Cross-site scripting (XSS) vulnerability in the httpError method in sapphire/core/control/RequestHandler.php in SilverStripe |

## Risk And Classification

### Problem Types: CWE-79

## NVD Known Affected Configurations (CPE 2.3)

| Type        | Vendor                       | Product                      | Version | Update | Edition | Language |
|-------------|------------------------------|------------------------------|---------|--------|---------|----------|
| Application | <a href="#">Silverstripe</a> | <a href="#">Silverstripe</a> | 2.3.0   | All    | All     | All      |
| Application | <a href="#">Silverstripe</a> | <a href="#">Silverstripe</a> | 2.3.1   | All    | All     | All      |
