

# CVE-2011-1278

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                                    |
|------------------------|------------------------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2011-1278                                                                                                                      |
| <b>State</b>           | PUBLIC                                                                                                                             |
| <b>Assigner</b>        | secure@microsoft.com                                                                                                               |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                                       |
| <b>Published</b>       | 2011-06-16 20:55:00 UTC                                                                                                            |
| <b>Updated</b>         | 2018-10-12 22:00:00 UTC                                                                                                            |
| <b>Description</b>     | Microsoft Excel 2002 SP3 and Office 2004 for Mac do not properly validate record information during parsing of Excel spreadsheets. |

## Risk And Classification

### Problem Types: CWE-119

## NVD Known Affected Configurations (CPE 2.3)

| Type        | Vendor                    | Product                | Version | Update | Edition | Language |
|-------------|---------------------------|------------------------|---------|--------|---------|----------|
| Application | <a href="#">Microsoft</a> | <a href="#">Excel</a>  | 2002    | sp3    | All     | All      |
| Application | <a href="#">Microsoft</a> | <a href="#">Excel</a>  | 2002    | sp3    | All     | All      |
| Application | <a href="#">Microsoft</a> | <a href="#">Office</a> | 2004    | All    | mac     | All      |
| Application | <a href="#">Microsoft</a> | <a href="#">Office</a> | 2004    | All    | mac     | All      |
