

# CVE-2011-2962

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                           |
|------------------------|---------------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2011-2962                                                                                                             |
| <b>State</b>           | PUBLIC                                                                                                                    |
| <b>Assigner</b>        | cve@mitre.org                                                                                                             |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                              |
| <b>Published</b>       | 2011-07-29 19:55:00 UTC                                                                                                   |
| <b>Updated</b>         | 2017-08-29 01:29:00 UTC                                                                                                   |
| <b>Description</b>     | Multiple stack-based buffer overflows in Invensys Wonderware Information Server 3.1, 4.0, and 4.0 SP1 allow remote attack |

## Risk And Classification

### Problem Types: CWE-119

## NVD Known Affected Configurations (CPE 2.3)

| Type        | Vendor                   | Product                                       | Version | Update | Edition | Language |
|-------------|--------------------------|-----------------------------------------------|---------|--------|---------|----------|
| Application | <a href="#">Invensys</a> | <a href="#">Wonderware Information Server</a> | 3.1     | All    | All     | All      |
| Application | <a href="#">Invensys</a> | <a href="#">Wonderware Information Server</a> | 4.0     | All    | All     | All      |
| Application | <a href="#">Invensys</a> | <a href="#">Wonderware Information Server</a> | 4.0     | sp1    | All     | All      |
| Application | <a href="#">Invensys</a> | <a href="#">Wonderware Information Server</a> | 3.1     | All    | All     | All      |
| Application | <a href="#">Invensys</a> | <a href="#">Wonderware Information Server</a> | 4.0     | All    | All     | All      |
| Application | <a href="#">Invensys</a> | <a href="#">Wonderware Information Server</a> | 4.0     | sp1    | All     | All      |
