

# CVE-2011-3244

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                                                                                    |
|------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2011-3244                                                                                                                                                                      |
| <b>State</b>           | PUBLIC                                                                                                                                                                             |
| <b>Assigner</b>        | product-security@apple.com                                                                                                                                                         |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                                                                                       |
| <b>Published</b>       | 2011-10-12 18:55:00 UTC                                                                                                                                                            |
| <b>Updated</b>         | 2017-09-19 01:33:00 UTC                                                                                                                                                            |
| <b>Description</b>     | WebKit, as used in Apple iTunes before 10.5, allows man-in-the-middle attackers to execute arbitrary code or cause a denial of service (CPU consumption) via crafted HTML content. |

## Risk And Classification

### Problem Types: CWE-119

## NVD Known Affected Configurations (CPE 2.3)

| Type        | Vendor                | Product                | Version | Update | Edition | Language |
|-------------|-----------------------|------------------------|---------|--------|---------|----------|
| Application | <a href="#">Apple</a> | <a href="#">Itunes</a> | 10.0    | All    | All     | All      |
