

# CVE-2012-0243

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                          |
|------------------------|--------------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2012-0243                                                                                                            |
| <b>State</b>           | PUBLIC                                                                                                                   |
| <b>Assigner</b>        | cert@cert.org                                                                                                            |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                             |
| <b>Published</b>       | 2012-02-21 13:31:00 UTC                                                                                                  |
| <b>Updated</b>         | 2018-01-05 02:29:00 UTC                                                                                                  |
| <b>Description</b>     | Buffer overflow in an ActiveX control in bwocxrun.ocx in Advantech/BroadWin WebAccess before 7.0 allows remote attackers |

## Risk And Classification

### Problem Types: CWE-119

## NVD Known Affected Configurations (CPE 2.3)

| Type        | Vendor                    | Product                             | Version | Update | Edition | Language |
|-------------|---------------------------|-------------------------------------|---------|--------|---------|----------|
| Application | <a href="#">Advantech</a> | <a href="#">Advantech Webaccess</a> | 5.0     | All    | All     | All      |
| Application | <a href="#">Advantech</a> | <a href="#">Advantech Webaccess</a> | 5.0     | All    | All     | All      |
| Application | <a href="#">Advantech</a> | <a href="#">Advantech Webaccess</a> | All     | All    | All     | All      |
