

# CVE-2012-3493

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                     |
|------------------------|---------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2012-3493                                                                                                       |
| <b>State</b>           | PUBLIC                                                                                                              |
| <b>Assigner</b>        | secalert@redhat.com                                                                                                 |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                        |
| <b>Published</b>       | 2012-09-28 17:55:00 UTC                                                                                             |
| <b>Updated</b>         | 2023-11-07 02:11:00 UTC                                                                                             |
| <b>Description</b>     | The command_give_request_ad function in condor_startd.V6/command.cpp Condor 7.6.x before 7.6.10 and 7.8.x before 7. |

## Risk And Classification

### Problem Types: CWE-200

## NVD Known Affected Configurations (CPE 2.3)

| Type        | Vendor                         | Product                | Version | Update | Edition | Language |
|-------------|--------------------------------|------------------------|---------|--------|---------|----------|
| Application | <a href="#">Condor Project</a> | <a href="#">Condor</a> | 7.6.0   | All    | All     | All      |
| Application | <a href="#">Condor Project</a> | <a href="#">Condor</a> | 7.6.1   | All    | All     | All      |
| Application | <a href="#">Condor Project</a> | <a href="#">Condor</a> | 7.6.2   | All    | All     | All      |
