

# CVE-2013-2756

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                             |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2013-2756                                                                                                               |
| <b>State</b>           | PUBLIC                                                                                                                      |
| <b>Assigner</b>        | cve@mitre.org                                                                                                               |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                                |
| <b>Published</b>       | 2014-05-23 14:55:00 UTC                                                                                                     |
| <b>Updated</b>         | 2023-11-07 02:15:00 UTC                                                                                                     |
| <b>Description</b>     | Apache CloudStack 4.0.0 before 4.0.2 and Citrix CloudPlatform (formerly Citrix CloudStack) 3.0.x before 3.0.6 Patch C allow |

## Risk And Classification

### Problem Types: CWE-287

## NVD Known Affected Configurations (CPE 2.3)

| Type        | Vendor                 | Product                       | Version | Update     | Edition | Language |
|-------------|------------------------|-------------------------------|---------|------------|---------|----------|
| Application | <a href="#">Apache</a> | <a href="#">Cloudstack</a>    | 4.0.0   | incubating | All     | All      |
| Application | <a href="#">Apache</a> | <a href="#">Cloudstack</a>    | 4.0.1   | All        | All     | All      |
| Application | <a href="#">Apache</a> | <a href="#">Cloudstack</a>    | 4.0.2   | All        | All     | All      |
| Application | <a href="#">Apache</a> | <a href="#">Cloudstack</a>    | 4.0.0   | incubating | All     | All      |
