

# CVE-2013-3803

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                             |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2013-3803                                                                                                               |
| <b>State</b>           | PUBLIC                                                                                                                      |
| <b>Assigner</b>        | secalert_us@oracle.com                                                                                                      |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                                |
| <b>Published</b>       | 2013-07-17 13:41:00 UTC                                                                                                     |
| <b>Updated</b>         | 2019-06-11 18:59:00 UTC                                                                                                     |
| <b>Description</b>     | Unspecified vulnerability in the Hyperion BI+ component in Oracle Hyperion 11.1.1.3, 11.1.1.4.107 and earlier, 11.1.2.1.129 |

## Risk And Classification

**Problem Types:** NVD-CWE-noinfo

## NVD Known Affected Configurations (CPE 2.3)

| Type        | Vendor                 | Product                  | Version  | Update | Edition | Language |
|-------------|------------------------|--------------------------|----------|--------|---------|----------|
| Application | <a href="#">Oracle</a> | <a href="#">Hyperion</a> | 11.1.1.3 | All    | All     | All      |
| Application | <a href="#">Oracle</a> | <a href="#">Hyperion</a> | 11.1.1.3 | All    | All     | All      |
| Application | <a href="#">Oracle</a> | <a href="#">Hyperion</a> | All      | All    | All     | All      |
| Application | <a href="#">Oracle</a> | <a href="#">Hyperion</a> | All      | All    | All     | All      |
| Application | <a href="#">Oracle</a> | <a href="#">Hyperion</a> | All      | All    | All     | All      |
