

# CVE-2014-2615

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                                                   |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2014-2615                                                                                                                                     |
| <b>State</b>           | PUBLIC                                                                                                                                            |
| <b>Assigner</b>        | hp-security-alert@hp.com                                                                                                                          |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                                                      |
| <b>Published</b>       | 2014-07-07 11:01:00 UTC                                                                                                                           |
| <b>Updated</b>         | 2017-01-07 02:59:00 UTC                                                                                                                           |
| <b>Description</b>     | Unspecified vulnerability in HP Universal CMDB 10.01 and 10.10 allows remote attackers to execute arbitrary code or obtain sensitive information. |

## Risk And Classification

**Problem Types:** NVD-CWE-noinfo

## NVD Known Affected Configurations (CPE 2.3)

| Type        | Vendor             | Product                                                     | Version | Update | Edition | Language |
|-------------|--------------------|-------------------------------------------------------------|---------|--------|---------|----------|
| Application | <a href="#">Hp</a> | <a href="#">Universal Configuration Management Database</a> | 10.01   | All    | All     | All      |
| Application | <a href="#">Hp</a> | <a href="#">Universal Configuration Management Database</a> | 10.10   | All    | All     | All      |
| Application | <a href="#">Hp</a> | <a href="#">Universal Configuration Management Database</a> | 10.01   | All    | All     | All      |
| Application | <a href="#">Hp</a> | <a href="#">Universal Configuration Management Database</a> | 10.10   | All    | All     | All      |
