

# CVE-2014-5171

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                                 |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2014-5171                                                                                                                   |
| <b>State</b>           | PUBLIC                                                                                                                          |
| <b>Assigner</b>        | cve@mitre.org                                                                                                                   |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                                    |
| <b>Published</b>       | 2014-07-31 14:55:00 UTC                                                                                                         |
| <b>Updated</b>         | 2023-12-21 04:14:00 UTC                                                                                                         |
| <b>Description</b>     | SAP HANA Extend Application Services (XS) does not encrypt transmissions for applications that enable form based authentication |

## Risk And Classification

### Problem Types: CWE-310

## NVD Known Affected Configurations (CPE 2.3)

| Type        | Vendor              | Product                                            | Version | Update | Edition | Language |
|-------------|---------------------|----------------------------------------------------|---------|--------|---------|----------|
| Application | <a href="#">Sap</a> | <a href="#">Hana Extended Application Services</a> | -       | All    | All     | All      |
| Application | <a href="#">Sap</a> | <a href="#">Hana Extend Application Services</a>   | -       | All    | All     | All      |
| Application | <a href="#">Sap</a> | <a href="#">Hana Extend Application Services</a>   | -       | All    | All     | All      |
