

# CVE-2015-0052

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                            |
|------------------------|----------------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2015-0052                                                                                                              |
| <b>State</b>           | PUBLIC                                                                                                                     |
| <b>Assigner</b>        | secure@microsoft.com                                                                                                       |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                               |
| <b>Published</b>       | 2015-02-11 03:00:00 UTC                                                                                                    |
| <b>Updated</b>         | 2018-10-12 22:08:00 UTC                                                                                                    |
| <b>Description</b>     | Microsoft Internet Explorer 10 and 11 allows remote attackers to execute arbitrary code or cause a denial of service (memo |

## Risk And Classification

### Problem Types: CWE-399

## NVD Known Affected Configurations (CPE 2.3)

| Type        | Vendor                    | Product                           | Version | Update | Edition | Language |
|-------------|---------------------------|-----------------------------------|---------|--------|---------|----------|
| Application | <a href="#">Microsoft</a> | <a href="#">Internet Explorer</a> | 10      | All    | All     | All      |
| Application | <a href="#">Microsoft</a> | <a href="#">Internet Explorer</a> | 11      | -      | All     | All      |
| Application | <a href="#">Microsoft</a> | <a href="#">Internet Explorer</a> | 10      | All    | All     | All      |
| Application | <a href="#">Microsoft</a> | <a href="#">Internet Explorer</a> | 11      | -      | All     | All      |
