

# CVE-2015-10018

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                                   |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2015-10018                                                                                                                    |
| <b>State</b>           | PUBLIC                                                                                                                            |
| <b>Assigner</b>        | cna@vuldb.com                                                                                                                     |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                                      |
| <b>Published</b>       | 2023-01-06 13:15:00 UTC                                                                                                           |
| <b>Updated</b>         | 2023-11-07 02:23:00 UTC                                                                                                           |
| <b>Description</b>     | A vulnerability has been found in DBRisinajumi d2files and classified as critical. Affected by this vulnerability is the function |

## Risk And Classification

### Problem Types: CWE-89

## NVD Known Affected Configurations (CPE 2.3)

| Type        | Vendor | Product | Version | Update | Edition | Language |
|-------------|--------|---------|---------|--------|---------|----------|
| Application | Weberp | D2files | All     | All    | All     | All      |
