

# CVE-2015-2584

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                        |
|------------------------|------------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2015-2584                                                                                                          |
| <b>State</b>           | PUBLIC                                                                                                                 |
| <b>Assigner</b>        | secalert_us@oracle.com                                                                                                 |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                           |
| <b>Published</b>       | 2015-07-16 10:59:00 UTC                                                                                                |
| <b>Updated</b>         | 2017-09-22 01:29:00 UTC                                                                                                |
| <b>Description</b>     | Unspecified vulnerability in the Hyperion Enterprise Performance Management Architect component in Oracle Hyperion 11. |

## Risk And Classification

**Problem Types:** NVD-CWE-noinfo

## NVD Known Affected Configurations (CPE 2.3)

| Type        | Vendor                 | Product                  | Version  | Update | Edition | Language |
|-------------|------------------------|--------------------------|----------|--------|---------|----------|
| Application | <a href="#">Oracle</a> | <a href="#">Hyperion</a> | 11.1.2.2 | All    | All     | All      |
| Application | <a href="#">Oracle</a> | <a href="#">Hyperion</a> | 11.1.2.3 | All    | All     | All      |
| Application | <a href="#">Oracle</a> | <a href="#">Hyperion</a> | 11.1.2.2 | All    | All     | All      |
| Application | <a href="#">Oracle</a> | <a href="#">Hyperion</a> | 11.1.2.3 | All    | All     | All      |
