

# CVE-2017-1256

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                                       |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2017-1256                                                                                                                         |
| <b>State</b>           | PUBLIC                                                                                                                                |
| <b>Assigner</b>        | psirt@us.ibm.com                                                                                                                      |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                                          |
| <b>Published</b>       | 2017-07-05 13:29:00 UTC                                                                                                               |
| <b>Updated</b>         | 2017-07-10 15:53:00 UTC                                                                                                               |
| <b>Description</b>     | IBM Security Guardium 10.0, 10.1 is vulnerable to cross-site scripting. This vulnerability allows users to embed arbitrary JavaScript |

## Risk And Classification

### Problem Types: CWE-79

## NVD Known Affected Configurations (CPE 2.3)

| Type        | Vendor              | Product                           | Version | Update | Edition | Language |
|-------------|---------------------|-----------------------------------|---------|--------|---------|----------|
| Application | <a href="#">ibm</a> | <a href="#">Security Guardium</a> | 10.0    | All    | All     | All      |
| Application | <a href="#">ibm</a> | <a href="#">Security Guardium</a> | 10.1    | All    | All     | All      |
| Application | <a href="#">ibm</a> | <a href="#">Security Guardium</a> | 10.0    | All    | All     | All      |
| Application | <a href="#">ibm</a> | <a href="#">Security Guardium</a> | 10.1    | All    | All     | All      |
