

# CVE-2017-5865

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                                                                                                                    |
|------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2017-5865                                                                                                                                                                                                      |
| <b>State</b>           | PUBLIC                                                                                                                                                                                                             |
| <b>Assigner</b>        | cve@mitre.org                                                                                                                                                                                                      |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                                                                                                                       |
| <b>Published</b>       | 2017-03-03 15:59:00 UTC                                                                                                                                                                                            |
| <b>Updated</b>         | 2017-03-08 01:50:00 UTC                                                                                                                                                                                            |
| <b>Description</b>     | The password reset functionality in ownCloud Server before 8.1.11, 8.2.x before 8.2.9, 9.0.x before 9.0.7, and 9.1.x before 9.1.11 allows remote attackers to reset the password of any user via the ownCloud API. |

## Risk And Classification

### Problem Types: CWE-200

## NVD Known Affected Configurations (CPE 2.3)

| Type        | Vendor   | Product  | Version | Update | Edition | Language |
|-------------|----------|----------|---------|--------|---------|----------|
| Application | Owncloud | Owncloud | 8.2.2   | All    | All     | All      |
| Application | Owncloud | Owncloud | 8.2.3   | All    | All     | All      |
| Application | Owncloud | Owncloud | 8.2.4   | All    | All     | All      |
| Application | Owncloud | Owncloud | 8.2.5   | All    | All     | All      |
| Application | Owncloud | Owncloud | 8.2.6   | All    | All     | All      |
| Application | Owncloud | Owncloud | 8.2.7   | All    | All     | All      |
| Application | Owncloud | Owncloud | 8.2.8   | All    | All     | All      |
| Application | Owncloud | Owncloud | 9.0.0   | All    | All     | All      |
| Application | Owncloud | Owncloud | 9.0.1   | All    | All     | All      |
| Application | Owncloud | Owncloud | 9.0.2   | All    | All     | All      |
| Application | Owncloud | Owncloud | 9.0.3   | All    | All     | All      |
| Application | Owncloud | Owncloud | 9.0.4   | All    | All     | All      |
| Application | Owncloud | Owncloud | 9.0.5   | All    | All     | All      |
| Application | Owncloud | Owncloud | 9.0.6   | All    | All     | All      |
| Application | Owncloud | Owncloud | 9.1.0   | All    | All     | All      |
| Application | Owncloud | Owncloud | 9.1.1   | All    | All     | All      |
| Application | Owncloud | Owncloud | 9.1.2   | All    | All     | All      |
