

# CVE-2018-12621

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                   |
|------------------------|-------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2018-12621                                                                                                    |
| <b>State</b>           | PUBLIC                                                                                                            |
| <b>Assigner</b>        | cve@mitre.org                                                                                                     |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                      |
| <b>Published</b>       | 2019-07-05 17:15:00 UTC                                                                                           |
| <b>Updated</b>         | 2019-07-08 19:58:00 UTC                                                                                           |
| <b>Description</b>     | An issue was discovered in Eventum 3.5.0. /htdocs/switch.php has an Open Redirect via the current_page parameter. |

## Risk And Classification

**Problem Types:** CWE-601

## NVD Known Affected Configurations (CPE 2.3)

| Type        | Vendor                          | Product                 | Version | Update | Edition | Language |
|-------------|---------------------------------|-------------------------|---------|--------|---------|----------|
| Application | <a href="#">Eventum Project</a> | <a href="#">Eventum</a> | 3.5.0   | All    | All     | All      |
| Application | <a href="#">Eventum Project</a> | <a href="#">Eventum</a> | 3.5.0   | All    | All     | All      |
