

# CVE-2018-1701

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                          |
|------------------------|--------------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2018-1701                                                                                                            |
| <b>State</b>           | PUBLIC                                                                                                                   |
| <b>Assigner</b>        | psirt@us.ibm.com                                                                                                         |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                             |
| <b>Published</b>       | 2019-02-15 20:29:00 UTC                                                                                                  |
| <b>Updated</b>         | 2019-10-09 23:38:00 UTC                                                                                                  |
| <b>Description</b>     | IBM InfoSphere Information Server 11.7 could allow an authenticated user under specialized conditions to inject commands |

## Risk And Classification

**Problem Types:** NVD-CWE-noinfo

## NVD Known Affected Configurations (CPE 2.3)

| Type        | Vendor | Product                                | Version | Update | Edition | Language |
|-------------|--------|----------------------------------------|---------|--------|---------|----------|
| Application | ibm    | Infosphere Information Server          | 11.7    | All    | All     | All      |
| Application | ibm    | Infosphere Information Server          | 11.7    | All    | All     | All      |
| Application | ibm    | Infosphere Information Server On Cloud | 11.7    | All    | All     | All      |
| Application | ibm    | Infosphere Information Server On Cloud | 11.7    | All    | All     | All      |
