

# CVE-2018-5283

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                                 |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2018-5283                                                                                                                   |
| <b>State</b>           | PUBLIC                                                                                                                          |
| <b>Assigner</b>        | cve@mitre.org                                                                                                                   |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                                    |
| <b>Published</b>       | 2018-01-08 09:29:00 UTC                                                                                                         |
| <b>Updated</b>         | 2018-01-29 12:33:00 UTC                                                                                                         |
| <b>Description</b>     | The Photos in Wifi application 1.0.1 for iOS has directory traversal via the ext parameter to assets-library://asset/asset.php. |

## Risk And Classification

### Problem Types: CWE-22

## NVD Known Affected Configurations (CPE 2.3)

| Type        | Vendor                                 | Product                        | Version | Update | Edition | Language |
|-------------|----------------------------------------|--------------------------------|---------|--------|---------|----------|
| Application | <a href="#">Photos In Wifi Project</a> | <a href="#">Photos In Wifi</a> | 1.0.1   | All    | All     | All      |
| Application | <a href="#">Photos In Wifi Project</a> | <a href="#">Photos In Wifi</a> | 1.0.1   | All    | All     | All      |
