

# CVE-2019-13560

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                       |
|------------------------|-----------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2019-13560                                                                                                        |
| <b>State</b>           | PUBLIC                                                                                                                |
| <b>Assigner</b>        | cve@mitre.org                                                                                                         |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                          |
| <b>Published</b>       | 2019-07-11 15:15:00 UTC                                                                                               |
| <b>Updated</b>         | 2021-04-23 16:55:00 UTC                                                                                               |
| <b>Description</b>     | D-Link DIR-655 C devices before 3.02B05 BETA03 allow remote attackers to force a blank password via the apply_sec.cgi |

## Risk And Classification

**Problem Types:** CWE-255

## NVD Known Affected Configurations (CPE 2.3)

| Type             | Vendor                | Product                          | Version | Update | Edition | Language |
|------------------|-----------------------|----------------------------------|---------|--------|---------|----------|
| Hardware         | <a href="#">Dlink</a> | <a href="#">Dir-655</a>          | c1      | All    | All     | All      |
| Hardware         | <a href="#">Dlink</a> | <a href="#">Dir-655</a>          | c1      | All    | All     | All      |
| Operating System | <a href="#">Dlink</a> | <a href="#">Dir-655 Firmware</a> | 3.02b05 | All    | All     | All      |
| Operating System | <a href="#">Dlink</a> | <a href="#">Dir-655 Firmware</a> | 3.02b05 | All    | All     | All      |
