

# CVE-2019-4193

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                                            |
|------------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2019-4193                                                                                                                              |
| <b>State</b>           | PUBLIC                                                                                                                                     |
| <b>Assigner</b>        | psirt@us.ibm.com                                                                                                                           |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                                               |
| <b>Published</b>       | 2019-07-11 20:15:00 UTC                                                                                                                    |
| <b>Updated</b>         | 2023-03-01 16:12:00 UTC                                                                                                                    |
| <b>Description</b>     | IBM Jazz for Service Management 1.1.3 and 1.1.3.2 stores sensitive information in URL parameters. This may lead to information disclosure. |

## Risk And Classification

### Problem Types: CWE-200

## NVD Known Affected Configurations (CPE 2.3)

| Type             | Vendor                    | Product                                     | Version | Update | Edition | Language |
|------------------|---------------------------|---------------------------------------------|---------|--------|---------|----------|
| Operating System | <a href="#">Ibm</a>       | <a href="#">Aix</a>                         | -       | All    | All     | All      |
| Application      | <a href="#">Ibm</a>       | <a href="#">Jazz For Service Management</a> | All     | All    | All     | All      |
| Operating System | <a href="#">Linux</a>     | <a href="#">Linux Kernel</a>                | -       | All    | All     | All      |
| Operating System | <a href="#">Microsoft</a> | <a href="#">Windows</a>                     | -       | All    | All     | All      |
