

# CVE-2019-5727

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                                |
|------------------------|--------------------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2019-5727                                                                                                                  |
| <b>State</b>           | PUBLIC                                                                                                                         |
| <b>Assigner</b>        | cve@mitre.org                                                                                                                  |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                                   |
| <b>Published</b>       | 2019-02-21 01:29:00 UTC                                                                                                        |
| <b>Updated</b>         | 2019-02-22 13:49:00 UTC                                                                                                        |
| <b>Description</b>     | Splunk Web in Splunk Enterprise 6.5.x before 6.5.5, 6.4.x before 6.4.9, 6.3.x before 6.3.12, 6.2.x before 6.2.14, 6.1.x before |

## Risk And Classification

### Problem Types: CWE-79

## NVD Known Affected Configurations (CPE 2.3)

| Type        | Vendor                 | Product                | Version | Update | Edition | Language |
|-------------|------------------------|------------------------|---------|--------|---------|----------|
| Application | <a href="#">Splunk</a> | <a href="#">Splunk</a> | All     | All    | All     | All      |
| Application | <a href="#">Splunk</a> | <a href="#">Splunk</a> | All     | All    | All     | All      |
| Application | <a href="#">Splunk</a> | <a href="#">Splunk</a> | All     | All    | All     | All      |
| Application | <a href="#">Splunk</a> | <a href="#">Splunk</a> | All     | All    | All     | All      |
