

# CVE-2020-10925

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                              |
|------------------------|------------------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2020-10925                                                                                                               |
| <b>State</b>           | PUBLIC                                                                                                                       |
| <b>Assigner</b>        | zdi-disclosures@trendmicro.com                                                                                               |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                                 |
| <b>Published</b>       | 2020-07-28 18:15:00 UTC                                                                                                      |
| <b>Updated</b>         | 2020-07-29 18:26:00 UTC                                                                                                      |
| <b>Description</b>     | This vulnerability allows network-adjacent attackers to compromise the integrity of downloaded information on affected insta |

## Risk And Classification

### Problem Types: CWE-295

## NVD Known Affected Configurations (CPE 2.3)

| Type             | Vendor                  | Product                        | Version          | Update | Edition | Language |
|------------------|-------------------------|--------------------------------|------------------|--------|---------|----------|
| Hardware         | <a href="#">Netgear</a> | <a href="#">R6700</a>          | -                | All    | All     | All      |
| Hardware         | <a href="#">Netgear</a> | <a href="#">R6700</a>          | -                | All    | All     | All      |
| Operating System | <a href="#">Netgear</a> | <a href="#">R6700 Firmware</a> | 1.0.4.84_10.0.58 | All    | All     | All      |
| Operating System | <a href="#">Netgear</a> | <a href="#">R6700 Firmware</a> | 1.0.4.84_10.0.58 | All    | All     | All      |
