

# CVE-2020-27730

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                             |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2020-27730                                                                                                              |
| <b>State</b>           | PUBLIC                                                                                                                      |
| <b>Assigner</b>        | f5sirt@f5.com                                                                                                               |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                                |
| <b>Published</b>       | 2020-12-11 20:15:00 UTC                                                                                                     |
| <b>Updated</b>         | 2022-08-06 03:51:00 UTC                                                                                                     |
| <b>Description</b>     | In versions 3.0.0-3.9.0, 2.0.0-2.9.0, and 1.0.1, the NGINX Controller Agent does not use absolute paths when calling system |

## Risk And Classification

### Problem Types: CWE-22

## NVD Known Affected Configurations (CPE 2.3)

| Type        | Vendor | Product          | Version | Update | Edition | Language |
|-------------|--------|------------------|---------|--------|---------|----------|
| Application | F5     | Nginx Controller | All     | All    | All     | All      |
| Application | F5     | Nginx Controller | 1.0.1   | All    | All     | All      |
| Application | F5     | Nginx Controller | All     | All    | All     | All      |
| Application | F5     | Nginx Controller | 1.0.1   | All    | All     | All      |
| Application | F5     | Nginx Controller | All     | All    | All     | All      |
| Application | Netapp | Cloud Backup     | -       | All    | All     | All      |
