

# CVE-2021-25829

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                     |
|------------------------|---------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2021-25829                                                                                                      |
| <b>State</b>           | PUBLIC                                                                                                              |
| <b>Assigner</b>        | cve@mitre.org                                                                                                       |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                        |
| <b>Published</b>       | 2021-03-01 16:15:00 UTC                                                                                             |
| <b>Updated</b>         | 2021-03-05 19:50:00 UTC                                                                                             |
| <b>Description</b>     | An improper binary stream data handling issue was found in the [core] module of ONLYOFFICE DocumentServer v4.0.0-9- |

## Risk And Classification

**Problem Types:** NVD-CWE-noinfo

## NVD Known Affected Configurations (CPE 2.3)

| Type        | Vendor     | Product         | Version | Update | Edition | Language |
|-------------|------------|-----------------|---------|--------|---------|----------|
| Application | Onlyoffice | Document Server | All     | All    | All     | All      |
