

# CVE-2021-44484

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                            |
|------------------------|----------------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2021-44484                                                                                                             |
| <b>State</b>           | PUBLIC                                                                                                                     |
| <b>Assigner</b>        | cve@mitre.org                                                                                                              |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                               |
| <b>Published</b>       | 2022-04-15 18:15:00 UTC                                                                                                    |
| <b>Updated</b>         | 2022-04-22 17:19:00 UTC                                                                                                    |
| <b>Description</b>     | An issue was discovered in YottaDB through r1.32 and V7.0-000. A lack of NULL checks in calls to emit_trip in sr_port/emit |

## Risk And Classification

**Problem Types:** CWE-476

## NVD Known Affected Configurations (CPE 2.3)

| Type        | Vendor                    | Product                 | Version | Update | Edition | Language |
|-------------|---------------------------|-------------------------|---------|--------|---------|----------|
| Application | <a href="#">Fisglobal</a> | <a href="#">Gt.m</a>    | All     | All    | All     | All      |
| Application | <a href="#">Yottadb</a>   | <a href="#">Yottadb</a> | 7.0-000 | All    | All     | All      |
| Application | <a href="#">Yottadb</a>   | <a href="#">Yottadb</a> | All     | All    | All     | All      |
