

# CVE-2022-28133

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                          |
|------------------------|--------------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2022-28133                                                                                                           |
| <b>State</b>           | PUBLIC                                                                                                                   |
| <b>Assigner</b>        | jenkinsci-cert@googlegroups.com                                                                                          |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                             |
| <b>Published</b>       | 2022-03-29 13:15:00 UTC                                                                                                  |
| <b>Updated</b>         | 2024-01-09 03:20:00 UTC                                                                                                  |
| <b>Description</b>     | Jenkins Bitbucket Server Integration Plugin 3.1.0 and earlier does not limit URL schemes for callback URLs on OAuth cons |

## Risk And Classification

### Problem Types: CWE-79

## NVD Known Affected Configurations (CPE 2.3)

| Type        | Vendor                  | Product                                      | Version | Update | Edition | Language |
|-------------|-------------------------|----------------------------------------------|---------|--------|---------|----------|
| Application | <a href="#">Jenkins</a> | <a href="#">Bitbucket Server Integration</a> | All     | All    | All     | All      |
| Application | <a href="#">Jenkins</a> | <a href="#">Bitbucket Server Integration</a> | All     | All    | All     | All      |
