

# CVE-2022-34002

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                            |
|------------------------|----------------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2022-34002                                                                                                             |
| <b>State</b>           | PUBLIC                                                                                                                     |
| <b>Assigner</b>        | cve@mitre.org                                                                                                              |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                               |
| <b>Published</b>       | 2022-09-16 02:15:00 UTC                                                                                                    |
| <b>Updated</b>         | 2022-09-19 18:54:00 UTC                                                                                                    |
| <b>Description</b>     | The 'document' parameter of PDS Vista 7's /application/documents/display.aspx page is vulnerable to a Local File Inclusion |

## Risk And Classification

### Problem Types: CWE-22

## NVD Known Affected Configurations (CPE 2.3)

| Type        | Vendor                      | Product                     | Version | Update | Edition | Language |
|-------------|-----------------------------|-----------------------------|---------|--------|---------|----------|
| Application | <a href="#">Pdssoftware</a> | <a href="#">Pds Vista 7</a> | All     | All    | All     | All      |
