

# CVE-2022-36909

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                           |
|------------------------|---------------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2022-36909                                                                                                            |
| <b>State</b>           | PUBLIC                                                                                                                    |
| <b>Assigner</b>        | jenkinsci-cert@googlegroups.com                                                                                           |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                              |
| <b>Published</b>       | 2022-07-27 15:15:00 UTC                                                                                                   |
| <b>Updated</b>         | 2023-11-02 21:04:00 UTC                                                                                                   |
| <b>Description</b>     | A missing permission check in Jenkins OpenShift Deployer Plugin 1.2.0 and earlier allows attackers with Overall/Read perm |

## Risk And Classification

**Problem Types:** CWE-862

## NVD Known Affected Configurations (CPE 2.3)

| Type        | Vendor  | Product            | Version | Update | Edition | Language |
|-------------|---------|--------------------|---------|--------|---------|----------|
| Application | Jenkins | Openshift Deployer | All     | All    | All     | All      |
