

# CVE-2022-3867

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                                                                       |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2022-3867                                                                                                                                                         |
| <b>State</b>           | PUBLIC                                                                                                                                                                |
| <b>Assigner</b>        | security@hashicorp.com                                                                                                                                                |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                                                                          |
| <b>Published</b>       | 2022-11-10 06:15:00 UTC                                                                                                                                               |
| <b>Updated</b>         | 2022-11-15 17:24:00 UTC                                                                                                                                               |
| <b>Description</b>     | HashiCorp Nomad and Nomad Enterprise 1.4.0 up to 1.4.1 event stream subscribers using a token with TTL receive updates until garbage collected - Security - HashiCorp |

## Risk And Classification

**Problem Types:** CWE-613

## NVD Known Affected Configurations (CPE 2.3)

| Type        | Vendor                    | Product               | Version | Update | Edition | Language |
|-------------|---------------------------|-----------------------|---------|--------|---------|----------|
| Application | <a href="#">Hashicorp</a> | <a href="#">Nomad</a> | 1.4.0   | All    | All     | All      |
| Application | <a href="#">Hashicorp</a> | <a href="#">Nomad</a> | 1.4.0   | All    | All     | All      |
| Application | <a href="#">Hashicorp</a> | <a href="#">Nomad</a> | 1.4.1   | All    | All     | All      |
| Application | <a href="#">Hashicorp</a> | <a href="#">Nomad</a> | 1.4.1   | All    | All     | All      |
