

# CVE-2022-40991

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                            |
|------------------------|----------------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2022-40991                                                                                                             |
| <b>State</b>           | PUBLIC                                                                                                                     |
| <b>Assigner</b>        | talos-cna@cisco.com                                                                                                        |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                               |
| <b>Published</b>       | 2023-01-26 22:15:00 UTC                                                                                                    |
| <b>Updated</b>         | 2023-02-02 17:53:00 UTC                                                                                                    |
| <b>Description</b>     | Several stack-based buffer overflow vulnerabilities exist in the DetranCLI command parsing functionality of Siretta QUARTZ |

## Risk And Classification

### Problem Types: CWE-120

## NVD Known Affected Configurations (CPE 2.3)

| Type             | Vendor                  | Product                              | Version                | Update | Edition | Language |
|------------------|-------------------------|--------------------------------------|------------------------|--------|---------|----------|
| Hardware         | <a href="#">Siretta</a> | <a href="#">Quartz-gold</a>          | -                      | All    | All     | All      |
| Operating System | <a href="#">Siretta</a> | <a href="#">Quartz-gold Firmware</a> | g5.0.1.5-210720-141020 | All    | All     | All      |
