

# CVE-2022-45382

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                              |
|------------------------|------------------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2022-45382                                                                                                               |
| <b>State</b>           | PUBLIC                                                                                                                       |
| <b>Assigner</b>        | jenkinsci-cert@googlegroups.com                                                                                              |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                                 |
| <b>Published</b>       | 2022-11-15 20:15:00 UTC                                                                                                      |
| <b>Updated</b>         | 2023-11-22 04:23:00 UTC                                                                                                      |
| <b>Description</b>     | Jenkins Naginator Plugin 1.18.1 and earlier does not escape display names of source builds in builds that were triggered via |

## Risk And Classification

### Problem Types: CWE-79

## NVD Known Affected Configurations (CPE 2.3)

| Type        | Vendor  | Product   | Version | Update | Edition | Language |
|-------------|---------|-----------|---------|--------|---------|----------|
| Application | Jenkins | Naginator | All     | All    | All     | All      |
